(54) Title: APPARATUS AND METHOD FOR ADDING A MONITOR TO A DISPLAY SYSTEM

(57) Abstract: A kit for adding a monitor to a display system configured to support multiple monitors is described, where the display system has at least one support member, and at least one electrical port associated with each support member. The kit includes a mounting bracket adapted to secure the monitor to one of the at least one support member, and an electrical connector adapted to electrically connect the monitor to one of the at least one electrical port corresponding to the one support member.
